Section 22.3 Powers of the Board of Zoning Appeals

In considering an application for a conditional use, a special exception, or interpretation of the zoning map, the Board shall give due regard to the nature and condition of all adjacent uses and structures; and, in authorizing a conditional use or special exception, the Board may impose such requirements and conditions with respect to location, construction, maintenance and operation in addition to those expressly stipulated in this resolution for the particular conditional use or special exception which the Board may deem necessary for the protection of adjacent properties and the public interest.
2. Conditional Uses and Special Exceptions: In addition to permitting the conditional uses and special exceptions hereinbefore specified, the Board shall have the power to permit the following conditional uses and special exceptions:
 - a. Nonconforming Uses - Substitutions: The substitution of a nonconforming use existing at the time of enactment of this resolution by another nonconforming use, if no structural alterations, except those required by law or resolution, are made; provided, however, that any use so substituted shall be of the same of a more restricted classification.
 - b. Nonconforming Uses - Extensions: The extension of a nonconforming building upon the lot occupied by such building, or on an adjoining lot, provided that such lot was under the same ownership as the lot in question at the time the use of such building became nonconforming and that such extension is necessary and incidental to such existing nonconforming use; provided further that such extension meets the approval of the Board, and provided, still further, that such extension shall in any case be undertaken within five years of the enactment of this resolution.
 - c. Extension of Use or Border District: The extension of a use or building into a more restricted district immediately adjacent thereto, but not more than 25 feet beyond the dividing line of the two districts, under such conditions as will safeguard development in the more restricted district

- d. Performance Standards Procedure: The Board shall have the power to authorize, upon application in specific cases, filed as hereinbefore provided, issuance of a zoning certificate for uses that are subject to the performance standards procedure as provided in this resolution.
- e. Temporary Structures and Uses: The temporary use of a structure or premises in any district for a purpose or use that does not conform to the regulations prescribed elsewhere in this resolution for the district in which it is located, provided that such use be a temporary nature and does not involve the erection of a substantial structure. A zoning certificate for such use shall be granted in the form of a temporary and revocable permit, for not more than a 12 month period, subject to such conditions as will safeguard the public health, safety, convenience and general welfare. However, an extension of time may be permitted subject to the recommendation of the Commission and approval of the Board.

Section 22.4 Interpretation of Zoning Map and Text

Where the street or lot layout actually on the ground, or as recorded, differs from the streets and lot lines as shown on the zoning map, the Board, after notice to the owners of the property or properties concerned, and after public hearing, shall interpret the map in such a way as to carry out the intent and purpose of this resolution. In case of any question as to the location of any boundary line between zoning districts, a request for interpretation of the zoning map may be made to the Board and a determination shall be made by the Board. Interpretation as to the meaning and intent of a textual provision of the resolution shall follow the same procedure as described above.

Section 22.5 Administrative Review and Variances

- 1. Administrative Review: The Board shall have the power to hear and decide appeals filed as hereinbefore provided where it is alleged by the appellant that there is an error in any order, requirements, decision, or grant or refusal made by the Zoning Inspector or other administrative official in the interpretation of the provisions of this resolution.
- 2. Variances: The Board shall have the power to authorize upon appeal in specific cases filed as hereinbefore provided such variances from the provisions and requirements of this resolution as will not be contrary to the public interest; but only in such cases where, owing to special conditions, pertaining to a specific piece of property, the literal enforcement of the provisions and requirements of this resolution would cause undue and unnecessary hardship.

Where, by reason of the exceptional narrowness, shallowness, or unusual shape of a specific piece of property on the effective date of this resolution, or by reason of exceptional topographic conditions or other extraordinary situation or condition of such piece of property, or of the use or development of property immediately adjoining the piece of property in question, the literal enforcement of the requirements of this resolution would involve practical difficulty or would cause unnecessary hardship, the Board shall have the power to authorize a variance from the terms of this resolution so as to relieve such hardship and so that the spirit and purpose of this resolution shall be observed and substantial justice done. In authorizing a variance, the Board may attach thereto such conditions regarding the location, character, and other features of the proposed structure of use as it may deem necessary in the interest of the furtherance of the purposes of this resolution and in the public interest. In authorizing a variance with attached conditions, the Board shall require such evidence and guarantee or bond as it may deem necessary to insure that the conditions attached are being and will be complied with.

No such variances in the provisions or requirements of this resolution shall be authorized by the Board unless the Board finds that all the following facts and conditions exist:

- a. That there are exceptional or extraordinary circumstances or conditions applying to the property in question or to the intended use of the property that do not apply generally to other properties or classes of uses in the same zoning district.

- b. That such variance is necessary for the preservation and enjoyment of substantial property rights possessed by other properties in the same zoning district and in the same vicinity.
- c. That the authorizing of such variance will not be of substantial detriment to adjacent property and will not materially impair the purposes of this resolution or of the public interest.

No grant of a variance shall be authorized unless the Board specifically finds that the condition or situation of the specific piece of property or the intended use of said property for which a variance is sought, one or the other or in combination, is not of so general or recurrent a nature as to make reasonably practicable the formulation of a general regulation for such conditions or situations.

Section 22.6 General Powers

In exercising its power, the Board may, in conformity with the provisions and statutes and of this resolution, reverse or affirm wholly or partly or may modify the order, requirement, decision, or determination appealed from and may make such order, requirement, decision or determination as ought to be made, and to that end shall have all the powers of the officer from whom the appeal is taken.

- 1. Variations - Literal Enforcement Would Create Undue Hardship: The Board shall have the power to authorize upon appeal in specific cases, filed as hereinbefore provided, such variances from the terms, provisions or requirements of this resolution as will not be contrary to the public interest; provided however, that such variances shall be granted only in such cases where, owing to special and unusual conditions pertaining to a specific piece of property, the literal enforcement of the provisions or requirements of this resolution would result in practical difficulty or undue hardship, so that the spirit of the resolution shall be upheld, public safety and welfare secured and substantial justice done.
- 2. Variance - Conditions Prevailing: Where, by reason of the exceptional narrowness, shallowness or unusual shape of a specific piece of property on the effective date of this resolution, or by reason of exceptional topographic conditions, or other extraordinary situation or condition of such piece of property, or of the use or development of property immediately adjoining the piece of property in question, the literal enforcement of the requirements of this resolution would involve practical difficulty or would cause unnecessary hardship unnecessary to carry out the spirit and purpose of this resolution, the Board shall have power to authorize a variance from the terms of this resolution, so as to relieve such hardship In authorizing a variance, the Board may attach thereto such conditions regarding the location, character and other features of the proposed structure or use as it may deem necessary in the interest of the furtherance of the purposes of this resolution and in the public interest. In authorizing a variance, with attached conditions, the Board shall require such evidence and guarantee or bond as it may deem to be necessary, to enforce compliance with the conditions attached.

Section 22.7 Variance - Finding of the Board

No such variance of the provisions or requirements of this resolution shall be authorized by the Board unless the Board finds, beyond reasonable doubt, that all the following facts and conditions exist:

- 1. Exceptional Circumstances: That there are exceptional or extraordinary circumstances or conditions applying to the property in question or to the intended use of the property, that do not apply generally to other properties or classes or uses in the same zoning district.
- 2. Preservation of Property: That such variance is necessary for the preservation and enjoyment of substantial property rights possessed by other properties in the same zoning district and in the same vicinity.

**Zoning Resolution,
Bennington Township, Licking County, Ohio**

3. Absence of Detriment: That the authorizing of such variance will not be of substantial detriment to adjacent property, and will not materially unpair the purposes of this resolution or the public interest.
4. Not of General Nature: No grant of a variance shall be authorized unless the Board specifically finds that the condition or situation of the specific piece of property, or the intended use of said property, for which variance is sought is not of so general or recurrent a nature as to make reasonably practicable the formulation of a general regulation for such conditions or situations.
5. Variances: Board May Reverse Orders, Etc: In exercising its power, the Board may, in conformity with the provisions of statute and of this resolution, reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision or determination as ought to be made, and to that end shall have all powers of the office from whom the appeal is taken.

The fee for such application shall include the cost of the special reports that may be required to process it, as set forth in Paragraph 2 below.
2. Report by Specialists: If, in its opinion, the proposed use may cause emission of dangerous or objectionable elements, the Board may refer the application to one or more specialists qualified to advise as to whether a proposed use will conform to the applicable performance standards specified in Article 13 for investigation and report. Such consultant or consultants shall report as promptly as possible after his or their receipt of such application. A copy of such report shall be promptly furnished to the applicant.
3. Review by Board: Within 30 days after the Board has received the aforesaid application, or the aforesaid report, or within such further period as agreed to by the applicant, the Board shall decide whether the proposed use will conform to the applicable performance standards, and on such basis shall authorize or refuse to authorize issuance of a zoning certificate or require a modification of the proposed plan or construction, or specifications, proposed equipment, or operation.
